

Sacajawea Center Team Meeting  
March 11, 2015  
4:30 p.m.

The Sacajawea Team meeting was held March 11, 2015 at 4:30 p.m. Attending were Chairman Waidely, Councilmen Chinske and Bockelman and Sacajawea Director Lin Gray.

Lin reported on the partners meeting of February 26. Four partners including BLM, Forest Service, Fish and Game and the Arts Council attended. Due to cutbacks in their funding, the partners will be participating in the Center's programs on a limited basis. Lin will continue to work proactively with the partners to maximize their efforts for the mutual benefit to all.

Waidely reported to the team that he had had complaints of a hazardous "widow maker" type tree close to the riverside trail that needs to be removed. Public Works will be fortified of this problem.

Lim updated the team on the rentals figures so far this fiscal year. Rentals are down from last year, however they should pick up as the season progresses due to future scheduled events and programming.

Professional Service Agreements with Mike Crosby and Jeremy Drake are due for renewal. Lin will send the agreements to the City Council with the team recommending approval.

The next meeting of the Sacajawea Center Team will be April 8, 2015 at 4:30 p.m.
